WORK EXPERIENCE

U.S. Customs and Border Protection

Nov 2023 – Mar 2025

Software Developer

Ashburn, VA

- Led the complete UI redesign of an internal image manipulation tool used by 58,000+ CBP officers, enhancing UX and reducing user interactions by 75%.
- Built front-end interfaces for predictive analytics, helping officers assess cargo efficiently.
- Enhanced image manipulation tools, improving personnel's ability to analyze visual data.
- Optimized UI components, reducing load times and improving responsiveness.
- Integrated user feedback to enhance accessibility, usability, and security compliance.
- Implemented and configured OIDC authentication, strengthening security and access management within the framework.

100DEVS

Jan 2022 – Nov 2023

Software Engineer Consultant

Los Angeles, CA

- Built and optimized full-stack web applications, applying best practices in React, Node.js, and Express.
- Enhanced performance and accessibility of web applications using agile methodologies and collaborative development practices.
- Debugged and resolved software issues utilizing Git for version control and Jest for testing.

QTS Data Centers

Feb 2020 – Nov 2023

QA Engineer

Sterling, VA

- Automated RESTful API testing using Java, Rest Assured, and TestNG, expanding regression test coverage.
- Implemented Workday test automation using Kainos, improving test efficiency.
- Automated test frameworks in CI/CD pipelines with Jenkins and Git, speeding up deployments.

Kaiser Permanente

Feb 2013 – Oct 2015

Software QA Engineer

Sterling, VA

- Automated test cases and performed manual testing for telecom applications.

U.S. Bank

Nov 2015 – Feb 2018

QA Automation Engineer

Sterling, VA

- Conducted end-to-end testing to ensure security and compliance standards were met.

T-Mobile

Feb 2013 – Oct 2015

Software QA Engineer

Sterling, VA

- Developed automated test cases and performed manual testing for telecom applications.
